These indices include all papers published in *Lubrication Engineering* in 1974. The volume number, (issue number), and page are listed in order. Single copies may be ordered from ASLE Publications, 838 Busse Highway, Park Ridge, Illinois 60068. Cost is $2.00 per copy, plus $1.00 per copy to foreign address, 50c domestic. Prepayment is required on all orders under $5.00. Orders over this amount that are not prepaid will be billed $1.00 additional for handling.

TITLE INDEX FOR 1974

Analysis of Hydraulic Fluid for Chlorine-Containing Contaminants, by M. J. Felsen and W. Gilbert 30 (10) 506

Bidentate Organic Oxygen Compounds as Boundary Lubricants for Aluminum, by B.W. Hotten 30 (8) 398

The Biological Testing of Cutting Fluids, by E. O. Bennett 30 (3) 128

Consideration of Materials for Aircraft Brakes, by M. B. Peterson and Ting-Long Ho 30 (12) 590

Cutting Efficiency Predictions by a Dual Performance Technique, by H. Henschen and W. C. Howell, Jr. . 30 (6) 315

Cutting Tools for Cutting Fluid Evaluation, by W. R. Russell 30 (5) 252

On Determining the Effects of Dynamic Shear and Thermal – Dependent Properties of Liquids with Reduced Material Quantities, by F. C. Brooks 30 (4) 201

EP Gear Oils Today and Tomorrow, by A. G. Papay .. 30 (9) 445

Evaluation of Cutting Fluids with an Automatic Drilling Machine, by E. Holodnik and L.M. Edwards 30 (4) 195

Evaluation of Several Additional Dry Lubricants for Spacecraft Applications, by C. E. Vest 30 (5) 246

An Examination of Rear Axle Wear Particulates, by R. E. Cantley 30 (10) 498

Experience in Field and Laboratory Evaluation of Metal Cutting Fluids, by T. H. Webb, W. J. Kelly, S. M. Darling, and L. R. Woodhill 30 (5) 231

Failure Modes and Accelerated Life Test Methods for Despun Antenna Bearings, by R. L. Smith and J. M. McGrew 30 (1) 17

Friction and Wear Characteristics of Plasma-Sprayed NiO-CaF_2 in Rubbing Contact with a Ceramic Mix, by G. D. Moore and J. E. Ritter 30 (12) 596

Friction Characteristics of Smooth and Rough Limited-Slip Differential Clutch Plates, by M. C. Goodwin and M. L. Haviland 30 (6) 305

Grease Life Forecast for Ball Bearings, by E. R. Booser 30 (11) 536

Grease Lubrication of Helicopter Transmissions, by John B. Christian and B. R. Simmons 30 (7) 340

Halogenated Solvents and Corrosion in Dynamic Systems, by M. Z. Fainman 30 (11) 556

Implementation of Grease Lubrication into U. S. Army Helicopter Tail Rotor Gearboxes – Preliminary Results, by Frederick Ho 30 (7) 351

Laboratory Testing of Glass Lubricants, by J. A. Schey, P. W. Wallace, and K. M. Kulkarni 30 (10) 489

Lithium Soap Dispersions as Drag-Reducing Hydraulic Fluids, by C. M. Henderson and R. C. Little 30 (9) 458

Lubrication Problems and Procedures in Canadian Pulp and Paper Mills, by D. W. Reed 30 (4) 185

Lubrication Scheduling, by D. W. Reed 30 (5) 241

Measuring Machining Performance, by D. W. Murphy 30 (1) 10

Mechanical Testing of Cutting Fluids, by P. M. Blanchard and R. J. Syrett 30 (2) 62

Polytetrafluoroethylene and Fluorinated Ethylene-Propylene Grease Lubricants, by J. Christian and B. Arkles 30 (3) 136

Response of Boundary Lubricant Additives in Phenylmethyl Silicone, by E. D. Groenhof and G. J. Quaal 30 (8) 389

A Review of Disposable Nonwoven Filtration Media for Cutting Coolant and Process Fluids, by K. A. Brooks, Jr. 30 (11) 542

Roller Gear Transmission Development Program, by L. R. Burroughs and James Gomez, Jr. 30 (7) 354

Seal Extrusion Under Cycling Pressure, by K. T. Ksieski 30 (2) 72

Standardization of Lubricants and Lubrication, by R. W. Clark 30 (9) 455

Static, Dynamic and Fatigue Load Influence on Solid Lubricant Compact Bearings, by F. J. Williams, J. W. VanWyk, and L. C. Lipp 30 (2) 76

Storing Lubricants, extracted by W. Huth 30 (3) 119

Sulfurized Esters Derived from tallow, Lard, and Other Fats as Lubricant Additives, by H. E. Kenney, E. T. Donahue, and I. Schmeltz 30 (8) 394

A Tapping Test for Evaluating Cutting Fluids, by E. N. Ladov 30 (1) 5

Trouble-Shooting Hydraulic Systems, by H. E. Tiffany 30 (1) 27

Vapor Deposition of Lubricant, by A. Butler and N. Popovic 30 (2) 59

Water Quality and Coolant Life, by E. O. Bennett ... 30 (11) 549

Wear Characteristics of Carbon Fiber Reinforced Thermoplastics, by J. Theberge and B. Arkles 30 (12) 585
